## Work experience

Since September  
2018

Computer Science specialist  
N/A Have been in a tech group in Embu

### Achievements:

Am an UI/UX designer working to better my skills day by day for a better User experience in the future.

Web developer using Html, Css and Javascript.

Was an active member of a tech group developments in Embu.

Skilled in networking and troubleshooting

## Skills

UI/UX Designer

Am a UI/UX designer working with Adobe Xd and Invision used for creating the best designs that the clients will be very proud of. Figma is part of the designing process and also use wireframes that help me during the designing process.

I love team work since work is made easier and there is alot more that working as a team provides rather than single work.

Web Developer

Am a web developer skilled in Html, Css and Javascript for creating good web design for great responsive web designs.

Am also willing and ready to learn more when it comes to development.

## Computer skills

UI/UX Designer,  
Database Admin

I have been working as a designer since early 2020 and it has been a working process and have gained and still gaining more experience and days go by.

Am also associated with databases such as Sql.

Web developer

Have been a website dev using Html,Css and Javascript that help in creation of good responsive websites and also animations in the various sites. HCI is among the leading factor in my development.
